YOUR ULTIMATE CHOICE FOR **LAST MILE**

COMPANY OFFERINGS

The company aims to become the ***ultimate choice for last mile transportation.***
We plan to achieve this by focusing on ***two key pillars (2Ps) - People & Performance***.

People - We prioritize them as they are not only the end users but also the cost bearers.

Performance- Our core focus because actions speak for themselves.

VISION

The Company’s Skateboard Technology enables faster vehicle development, various vehicles like shuttle buses and delivery vans can be built on the same platform.

The platforms also allow new and existing car manufacturers to develop their own models saving up to two years of R&D and 2 million dollars in investments.

MISSION

Our technology is designed and constructed to tackle any road condition, be it paved or unpaved. With a clear vision and purpose, our aim is to create greener and safer roads by developing innovative solutions.

We are committed to solving the challenges of modern transportation and paving the way for a sustainable and secure future.

PROBLEM

ISSUES WITH EXISTING COMMERCIAL ELECTRIC VEHICLES IN LAST MILE

PERFORMANCE ANXIETY

LOW RANGE
LOW SPEEDS

PAYLOAD

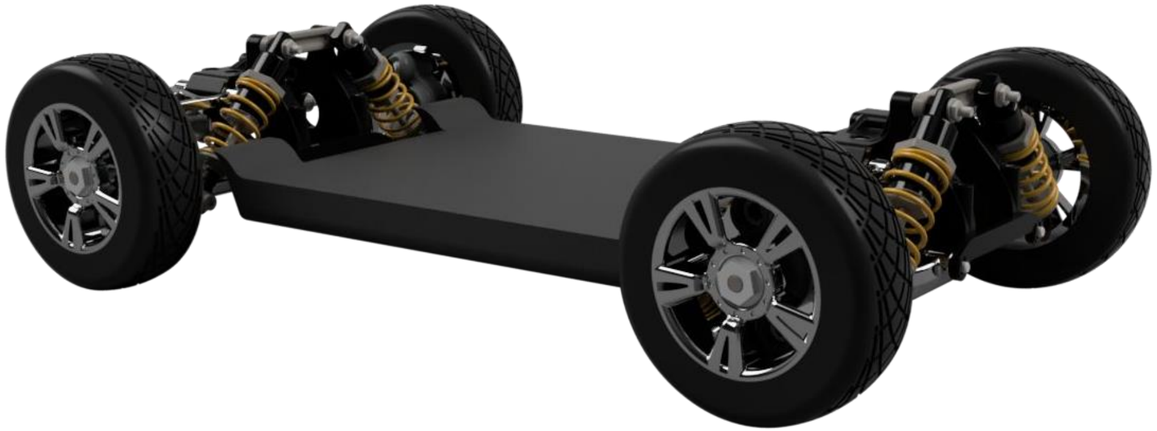
3W AND 4W EVs HAVE
0.5 TO 1 TON
PAYLOAD

CARBON FOOTPRINT

AVERAGE 11 HOURS PER DAY
DRIVING ICE COMMERCIAL
PICKUP TRUCKS

SOLUTION

Customizable Electric Skateboard Technology to enable High Performance and Cost Effective EV Solutions



4 Ton
Max Cargo Load

450 kms
Max Range

80 kmph
Top Speed

PRODUCT

Fully Electric Pickup Truck based on our proprietary skateboard targeted to address growing last-mile **commute and delivery market**

This Truck is designed to maximise usability, storage and passenger comfort

2 Ton
Max Cargo Load

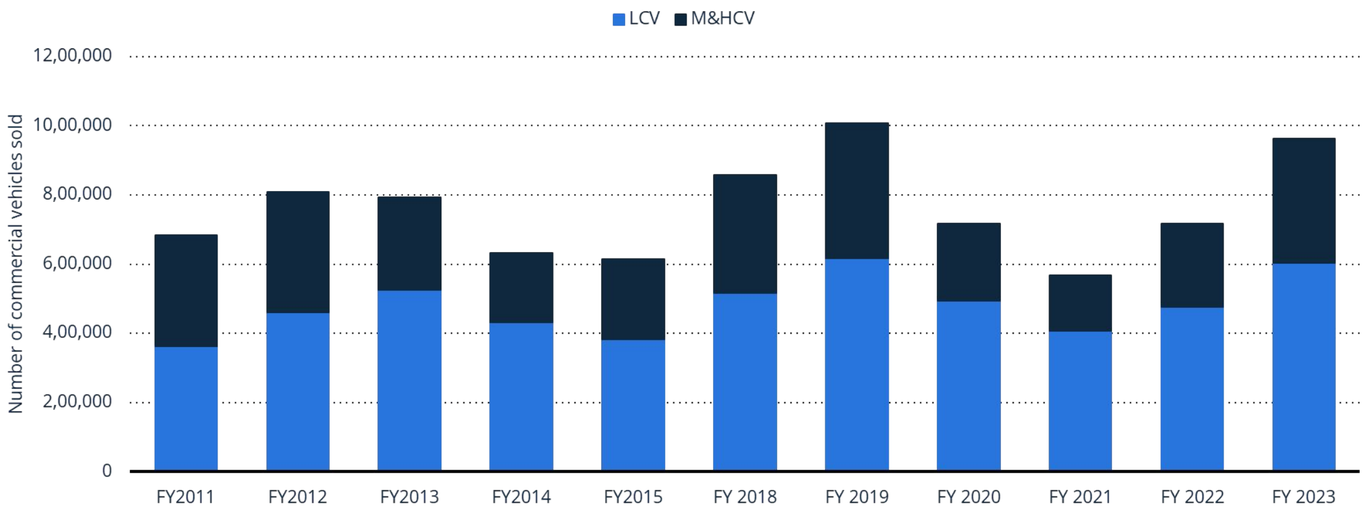
200 cu feet
Max Cargo Volume

150 kms
Range

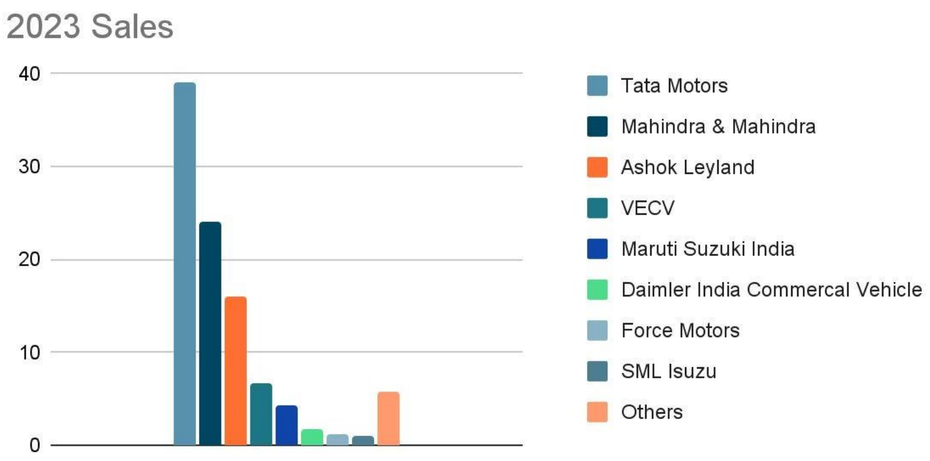
50 kmph
Top Speed

Rugged, Durable, and can perform in the most extreme conditions.

MARKET SIZE



Domestic sales of commercial vehicles in India from financial year 2011 to 2023, by segment



2023 Market Share Company Wise

Target 5% of LCV market segment by FY 2040.
Manufacturing 3500 Units per Year.

Total Indian Addressable Market Size: ₹ 5000+ Cr
Calculated at 45% CAGR

Source(s): Autocar Professional; Federation of Automobile Dealers Associations & Ashok Leyland; SIAM India

REVENUE

ONE TIME SALES MODEL

₹ 10,00,000

TARGET GROUP : B2B

OEM Sales Model

Retainer based Co Development Model

TARGET GROUP: OEM

TRACTION

TRACTION

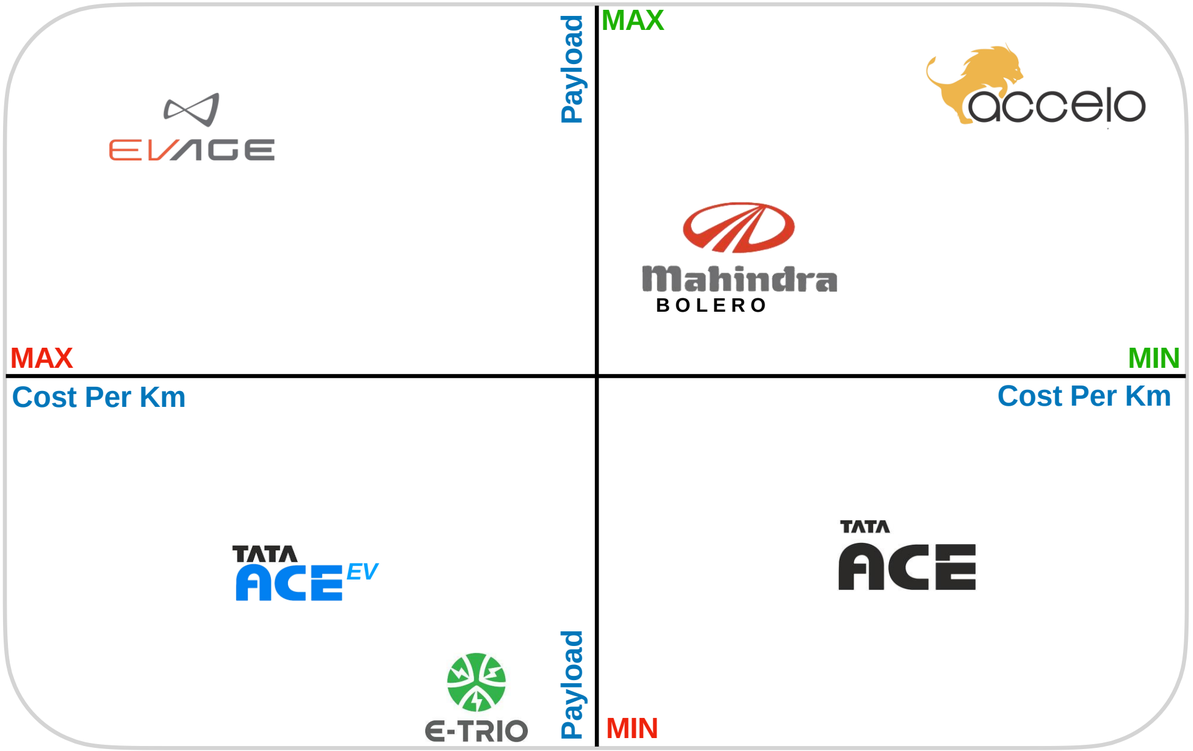
- Started sales from May 2023
- OEM Sales Revenue - Rs. 25 Lakhs
- Total Revenue - Rs. 40 Lakhs

Projection for FY’25

No. of Vehicles: 20 (~Rs. 2Cr)
OEM Sales: Rs. 50 Lakhs

COMPETITION

COMPETITIVE LANDSCAPE



COST OF OWNERSHIP

USP

2 Ton
Max Cargo Load

FCW and Accident Avoidance

150 km

***Base Variant Range**
