Industrial & Occupational Health
& Safety Services

"Corporate Health Solution At One Stop"

Who We Are

Aditi Wellness is Providing a Complete Health and Safety Solution for Corporate and Occupational Health since 2018.

Our success can be attributed to policy of providing services to customers with innovative, impactful and high quality Services and Solutions meeting specific needs of Organization.

We emphasize on providing complete and hassle free clinical solution to our clients.

We are dedicated to make a significant contribution in this expanding market of Industrial and Corporate health services with an aim to exceed customer expectations.

Vision

- To bridge the gap between employee health needs and organizational goals by providing holistic and measurable health, safety and wellness solutions.
- To continuously innovate and adapt health, safety and wellness strategies that meet the evolving needs of Organizational and Industrial workforces, ensuring long-term benefits for both employees and businesses.

Mission

- To be the most trusted partner for Occupational Health, Safety and Wellness, enabling healthier and more productive workforces worldwide.
- To be the leading provider of excellent health, safety and wellness solutions with integration of technology for Corporate and Industrial workforces, fostering healthier lives and stronger businesses globally.

Need of Occupational Health & Safety

It is an implied duty of Employer to Provide safe and Healthy Working environment and upkeep Good Health of Employees.

Statutory Requirement

As per The Indian Factories Act Companies has to Mandatorily Comply for Heath and Safety

---

Companies Must Have

1) OHC - One Clinic with Doctor & Nurse within Company
2) Ambulance
3) First Aid / CPR Training annually for 10 per cent of total Manpower
4) Trainings : Safety, Fire, Hygiene, Ergonomic
5) Audit: Safety, Fire, Hygiene, Ergonomics
6) ISO and OHSAS Audit

How Employee Health, Safety and Wellness can Benefit to Organization

1. Improved Productivity

1. Employees in Good Physical and Mental Health can perform better, Complete tasks more efficiently, and Maintain higher focus.
2. Studies show wellness programs can increase productivity by up to 12%.

1. Reduced Absenteeism

1. Healthier employees take fewer sick days, ensuring consistent workflow and reduced operational disruptions.
2. Absenteeism itself has direct and Indirect cost and overall performance Impact on Organization.
3. Organizations with wellness programs report a 25% reduction in absenteeism.

2. Enhanced Employee Morale

1. A culture of wellness fosters happier employees who feel valued and motivated, leading to better team dynamics.

3. Lower Healthcare Costs

1. Preventative wellness programs reduce long-term healthcare expenditures for both employees and organizations.
2. "Every ₹80 spent on wellness programs saves employers up to ₹240 in healthcare costs."

4. Stronger Organizational Reputation

1. Companies investing in employee wellness attract top talent, retain employees longer, and build a positive brand image.
